## Fundamentals of Life Science 2: **Week 12 HOMEWORK CHECKLIST**

ALL GRADES

*Due on November 29th*

### \_\_\_\_\_ (20 points) QUARTER 2 TEST

\_\_\_\_\_ **STUDY FOR TEST:** Study for the test and make sure you are ready. Use the Facile review game links (Reviews A & B, Ecosystem Quarter 2) on the class web page to study. If you know the material from the two review games, you will do well on the test and will be able to answer extra credit questions. The test will include the temperate deciduous forest and grasslands ecosystems, as well as the characteristics of reptiles, birds, and mammals. Relationship questions from last week's lesson will be extra credit. The test will be matching, multiple choice, and T/F- type questions. Again, easy peasy if you prepare!

\_\_\_\_\_ **TAKE THE TEST:** The test is closed notes and must be proctored by a parent. **Questions and answer options may be read to the student if needed, but no other help or hints are to be given.** The proctor needs to sign the test in the space provided and return the test to the envelope when completed and seal it. Put the test in the pocket of your science binder ready to turn in on the 29th, when we return from Thanksgiving break.

***NOTE:** The reading lesson for the Taiga will be given on the 29th due to the Thanksgiving holiday and having time to prepare for and take your test. Watch the videos below to back up what we learned in class about evergreen/coniferous trees and to learn more about the Taiga ecosystem before taking our next field trip when we return from Thanksgiving break. It will be our best field trip yet!*

### \_\_\_\_\_ (25 points) Reinforcement & Review:Taiga

Watch the following videos on evergreens and the Taiga biome. The videos will be listed on the class webpage for easy access:

**Trees That Never Lose Their Leaves (SciShow):** <https://www.youtube.com/watch?v=hwfQEK29Wrg&t=5s>

**Guess That Tree (SciShowKids):** <https://www.youtube.com/watch?v=qFVh2fTR2XA&t=88s>

**Exploring the Taiga Biome (FreeSchool):** [https://www.youtube.com/watch?v=0\\_Nmuqf35T0](https://www.youtube.com/watch?v=0_Nmuqf35T0)

**What's Inside a Pinecone (SciShowKids):** <https://www.youtube.com/watch?v=c3m9d9n8kvc>

**Evergreen Trees for Kids (LittleCozyNook):** <https://www.youtube.com/watch?v=hv3dh9A4A9M>

Fundamentals of Life Science 2: **Week 12 HOMEWORK CHECKLIST**

ALL GRADES

*Due on November 29th*

\_\_\_\_\_ **(5 points) Prepare for our field trip to the Taiga**

Please bring in a stocking hat, scarf, mittens or gloves. OR all three! You will need them for our field trip to the Taiga when we return on the 29th and we are not going to share hats! Put these items in your backpacks before Thanksgiving so you don't forget. No coats are needed for the "field trip," but please remember to bring a coat to SHARE if it is going to be a cold day for recess. The 29th will be our last class day for the semester so you WILL need your binder, and supplies. I will return your field journal as well.

\_\_\_\_\_ **(5 points) Have a Safe and Wonderful Thanksgiving Holiday with Family and Friends!**
